Water Meter Datasheet

Smart Metering Solutions

Smart Ultrasonic Water Meter

Smart ultrasonic water meters offer accurate water consumption measurement through advanced technology. They come in various sizes suitable for residential, commercial, and industrial applications.

Key Features:

- High precision with standard outputs for real-time data transmission
- Durable design for any environment
- Economical price

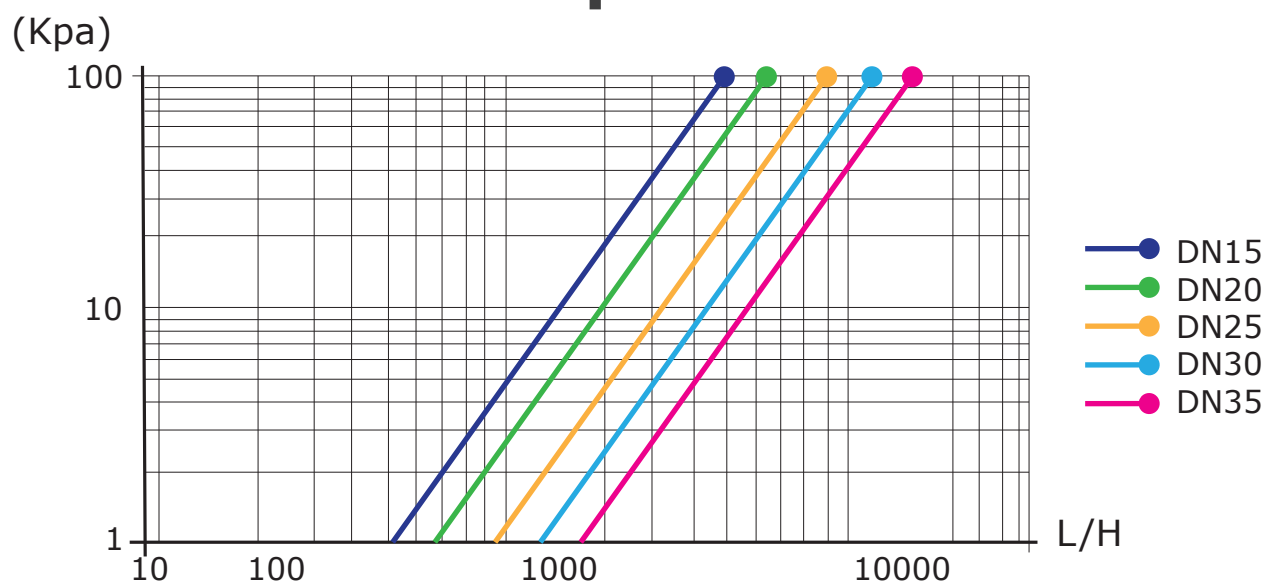

These meters are widely used for metering and sub-metering purposes to manage water consumption.

Specification

Pipe Diameter		DN15	DN20	DN25	DN32	DN40
Minimum flow (q_1)	l/h	6	10	15	25	40
Transitional flow (q_2)	l/h	10	16	25	40	65
Nominal flow (q_3)	m ³ /h	2.5	4.0	6.4	10	16
length	mm	165	195	225	180	200
pressure	bar	PN16				
Battery	volt	3.6 DC 6-10 years lifetime optional				
communication		M-Bus / wM-Bus / Modbus & Optical port				
Installation		Horizontal - vertical				
Standards		EN14154 - OIML R49 - ISO4064				

Pressure drop

The online monitoring software provides access to all data readings
